Through a very good accessible road we reach the gate of this nice plot with house. The house needs some modernization but can be done in time. With entering the house there is a large living room across the entire width of the house. Behind it is a large hallway with a closed kitchen, 2 bedrooms and 1 bathroom. The hallway is wide enough to create another single bedroom. The kitchen is functional but can be modernized in time. From the kitchen there is a door to an outside area with a bbq. Directly on the kitchen is a pantry/storage room. The bathroom is in good condition and has a toilet, bidet, sink and shower. At the front of the house is a large covered terrace with a small bbq. Directly at the house is a 4.50 x 6.50 mtr concrete pool that can be tiled. There is both city and irrigation water. On the plot there are various types of fruit and nut trees. AFO in place!
