PANORAMIC VIEWS OF THE BLACK SEA

Can you imagine investing in beachfront flats in the Expansion tourist area for only \$30,000? Obviously this does not exist within Spain. But I invite you to visit the city of Batumi located in the country of Georgia. Can you imagine having invested in DUBAI in its beginnings? Well, now you have a similar opportunity. Batumi has been nominated by FORBES magazine as one of the most profitable and safe cities to invest in. You will also be surprised at how easy the administrative and fiscal process is compared to Spain. You will surely have many doubts, don't worry, we have all kinds of information at the HI NERJA offices. We will make an appointment and talk about it. We also have an agreement with the leading company in tourist rentals in Batumi, each flat is rented for approximately 15% per year.
